Business Analyst - Internship (m/f)
Healthcare & Life Sciences

Berlin

Students or recent Graduates (Bachelor's or Master's)

Full time
Starting now

We are an international strategy and transaction advisory firm specialized in the healthcare and life science industries. We accompany our customers in their strategy and business development, as well as in the initiation of strategic partnerships, mergers and acquisitions.

Your Responsibilities & Perspectives

- As a Business Analyst, you will support us on our strategy and transaction projects for clients in the Pharma, Biotech and MedTech industries.
- In co-operation with the BGM team you will work on creative solutions for our clients' strategic and operational challenges.
- You will be responsible for market, competition, and innovation research and support the strategic analysis of our clients' firms and their related industries.
- You will have the opportunity to take over controlling and administrative tasks to support BGM's management in the further development of its business and the company.

Your Profile

- Student or a recent graduate in the area of Business Administration, Health Economics, Biomedicine, Bioengineering, Pharmaceuticals, Chemistry or combinations of these fields
- Strong analytical and problem-solving capabilities, curiosity, creativity, and a high degree of self-initiative
- Vivid interest in healthcare and life sciences
- Strong communication and social skills
- Excellent command of Microsoft Word, Excel, and PowerPoint
- Very good proficiency in English; at least intermediate German skills
- Flexibility and mobility
